April 2023

V. 60, No. 2

President's Report

President Ken Sterling invites us all to attend a special **Club Lunch Meeting on Tuesday April 4, starting at 12:00 Noon at JoJo's Family Restaurant.** Following lunch (NOT DINNER!) we will carpool to Danny Morris' garage and collection in Preston. Danny's garage and cars were featured in a recent Maryland Public Television production on the history of the Alpha Kappa Alpha sorority of Howard University. Danny himself had a role in the production. President Ken is bringing a Smith Island cake, utensils and water for a snack following our visit.

At our March 7 Club meeting, membership voted to participate in two upcoming car shows; **The First State Antique Tractor Club's** show on **June 24** at the **Laurel Auction Block**, and the **Hebron Lion Club Show** on **September 16** at the **Hebron Lions Ball Park.**

The Club meeting for Tuesday May 2 will return to our usual dinner meeting format, **6:00 pm at JoJo's.** President Ken reports that we will have a guest speaker, to be announced shortly, and you won't want to miss it!

President Ken also reported on his recent visit to an AACA regional show in Williamsburg, Virginia, and shared a wealth of information and handouts. He reminds everyone that the AACA Southeastern Spring National show is coming up on April 13 – 15 at the Charlotte Motor Speedway in Concord, NC. The National Mustang Museum, located a half-mile from the show, is also having a show and special Ford events during the same time.

Craig Duerling, AACA national award-winning webmaster for the Bay Country Regional Club, has agreed to design a website for our Club. We hope to have it online by the first of May.

The highlight of our March 7 meeting was a Zoom visit from Rick Theriault and student members of the Wamango Future Farmers of America tractor restoration team of Litchfield, Connecticut. They gave us a tour of their shop and projects and a report on how they are using our recent gift of a sandblasting cabinet. Pictured (next page) is some members of the team and a photo of a recent project.
